

1. TeleSCoPE project at The International eHealth, Telemedicine and Health ICT Forum for Education, Networking and Business (Med-e-Tel), 2011, (www.medetel.eu) at Luxembourg, G. D. Of Luxembourg

A consultation meeting of the TeleSCoPE project was organized as part of Med-e-Tel 2011 program. The primary objective of TeleSCoPE Project was presented, i.e. the development of a comprehensive Code of Practice for Telehealth Services (i.e. relating to that aspect of telemedicine and telecare delivered in the home and mediated through ICT).

The presentation

[Telehealth in the Home: Surveillance, Information and the Importance of User Autonomy](#)

Malcolm Fisk

Health Design & Technology Institute, Coventry University, UK

was followed by an informal discussion.

2. TeleSCoPE project at Workshop – Support for companies developing Ambient Assisted Living solutions to achieve market break through eHealth, Brussels, Belgium, 7 June 2011

The following presentation was delivered:

[From Technologies to Services: Developing a Telehealth Services Code of Practice](#)

Frederic Lievens

International Society for Telemedicine & eHealth (ISfTeH)
