Session: Launch of the European Code of Practice for Telehealth Services April 11, 2013, Details of the Telehealth Services Code of Practice for Europe and provisions for its implementation were presented.

The Code of Practice, through establishing service standards and guidelines, aims to help establish relationships of trust between users, patients and providers and contribute to overall health and well-being. The guidelines provide a quality benchmark for service regulation. The strategic relevance of TeleSCoPE relates to the fit with EU initiatives that promote healthy lifestyles, healthy workforce, healthy life-years and healthy ageing, social inclusion and engagement, economic and social development, ICT application and the coordination of policies and programmes within member states.

The presentations were:
